welcome

Introducing a luxurious certified organic and vegan range exclusively formulated for the professional salon and spa experience.

Born out of a noticeable niche in the beauty industry, **organicspa** was formulated using over 30 years experience developing natural and organic skin care products.

With the attainment of organic certification by independently approved bodies and vegan assessed by the UK Vegan Society, the range is made using the finest certified organic extracts combined with 100% naturally derived ingredients.

Developed in the pristine shire of Byron Bay Australia, each product combines locally sourced ingredients with extracts sourced from fair trade suppliers around the world. Our environmental footprint is also considered with eco-friendly packaging that is not only recyclable but in some cases the components are biodegradable.

The exclusive range has been formulated using the best nature offers with vitamins, oils and actives that ensure each product and treatment are results-driven.

organicspa is your guarantee of purity.
